DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group A, claim(s) 1-9, drawn to a neural implant (probe).

Group B, claim(s) 10-13, drawn to a neural prosthesis.

Group C, claim(s) 14-15, drawn to a "use of a neural implant that minimizes scar formation.

Group D, claim(s) 16, drawn to a "method of stimulating neuronal growth and minimizing scar formation by an implant in a brain".

Group E, claim(s) 17, drawn to an orthopedic prosthesis.

Group F, claim(s) 18, drawn to a "method of stimulating osteoblast proliferation and minimizing fibroblast encapsulation".

Group G, claim(s) 19-21, drawn to a "method of selecting a nanomaterial suitable for an implant".

The inventions listed as Groups A-G do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The same special technical feature in all groups is a nanomaterial which is well known and not inventive feature. See all reference cited on the international search report such as paragraph 0018 of 2004/0131753 shown below:

[0018] ¹⁹ It is yet another object of the present invention to provide an improved medical device, as above, wherein the electrostatically spun nanofibers are directly spun onto the medical device.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
